EST. HOUSE ALGOZZINO

HERITAGE & HORIZONS

# Old roots, *modern mastery.*

Algoz takes its name from the old Sicilian surname **Algozzino** — origins reaching beyond medieval Sicily, carrying a long lineage of trust, service and discretion. We are part of **House Algozzino**, a traditional Sicilian family of ancient Greek and Arabic roots, whose heritage of hospitality, craft and quiet stewardship runs through everything we do. After years serving a small inner circle — initiated by former French Foreign Legion soldiers — we opened our doors to a wider, equally discerning few. Old roots; modern mastery.

OUR STANDARD

*"The world's most demanding clients don't search for services. **They are referred to us.**"*

## THE ALGOZ POSITION

# We are both. *By design.*

*Algoz is the originator of a category that fuses both sides of the equation — security-led luxury living.*

Not a security agency that can arrange a driver, nor a concierge that can call a bodyguard. Close protection, concierge, events and destination management as one integrated discipline — held by one trusted source, governed by discretion, delivered worldwide.

## PILLAR A

## Luxury Lifestyle & Events

*Elevate Your Lifestyle.*

Destination weddings · private travel & escapes · brand & private events · photography & film · villas & property · real estate management · executive concierge & VIP access.

## PILLAR B

## Protection & Mobility

*Dominance Delivered.*

Close protection & bodyguard · executive transportation · asset transportation · luggage services · private aviation & yacht charter · secured destination management.

A VERY EXCLUSIVE GROUP

# Proven in *the field.*

*Elite, by acquaintance.*

We partner with a select group of elite military, law enforcement and special-forces veterans, alongside trusted specialists across multiple regions. Every member of the network is personally known to us — long-standing collaborators, tested and validated through real operational deployments.

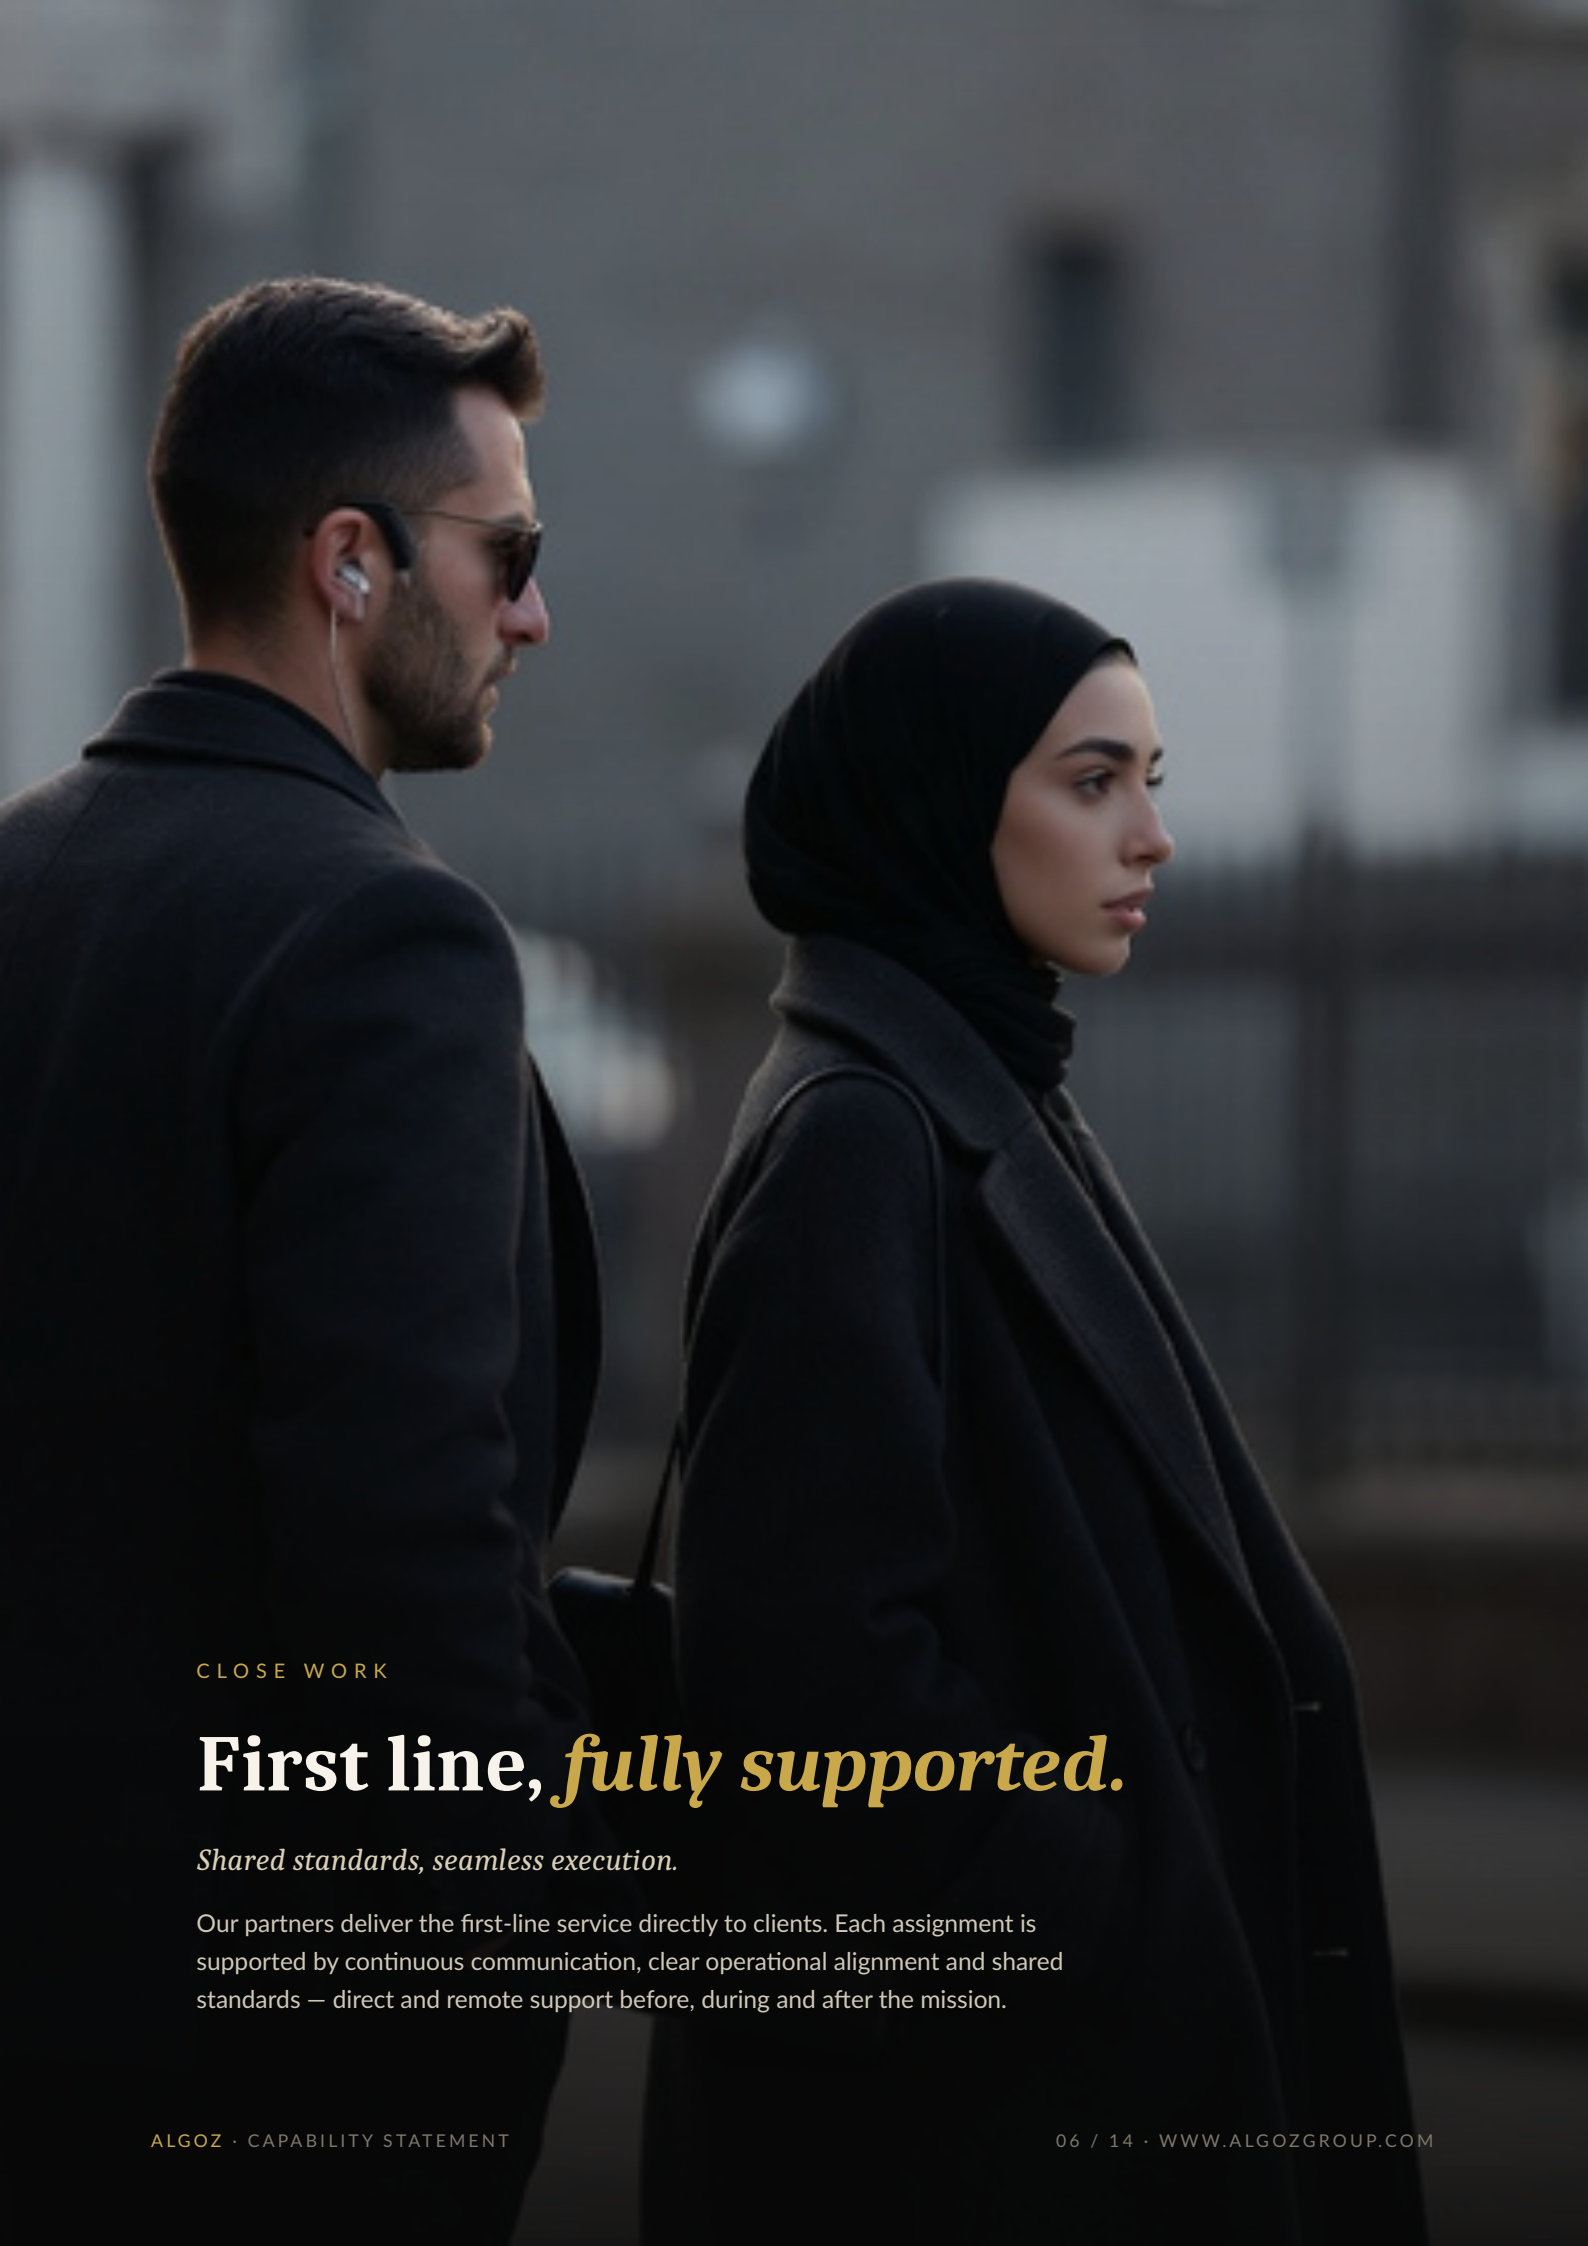

OUR NAPOLEONIC STYLE

# Command, *then trust.*

*Classical command for a complex era.*

Strategic intent is defined with absolute clarity, then entrusted to proven specialists granted full authority to execute. Each member operates with independence, accountability and an acute understanding of the mission — favouring intelligence, judgment and experience over visibility or force.
